

KEEP THEM SAFE!

AND CONNECTED WITH THREAT EXTINGUISHER

ALERT

When the Threat Extinguisher canister is removed from its communication base a 108 decibel alarm alerts those nearby of a threat while simultaneously alerting, via texts and emails, designated staff, including resource officers and on site security. Safety protocols can immediately be put into action.

NOTIFY

The automated communication system immediately notifies first responders, communicating the exact location of the threat, facilitating faster response times.

DEFEND

Threat Extinguisher now provides a canister of tactical grade pepper spray that can be used as a last resort to disable the assailant.

2x stronger than law enforcement grade pepper spray

5,000,000 on the Scoville Scale

Fires up to **20 feet**

A powerful self-defense solution for:

GOVERNMENT

CHURCHES

SCHOOLS

WORK PLACE

RESTAURANTS

THE RIGHT SYSTEM TO MAKE ANY SPACE SAFER.

SMART CASE

Designed for applications where immediate communication with authorities and access to self defense is needed. Can be mounted under desks or behind counters as a visual deterrent. Perfect for businesses, retail establishments and bars and restaurants.

SMART BASE

Ideal for application where immediate communication to authorities and access to self defense is required in an open gathering place. Case keeps access to Threat Extinguisher protected during every day activities. Similar to fire extinguisher's protocol - break glass to access the Threat Extinguisher.
